The Elba Business and Professional Women (BPW) held a picnic at the home of Mrs. Nellie Martin on Monday night of this week. Now most everyone has a picnic some time or another but what made this one so special was that I received an invitation and was asked NOT to bring my camera -- just come and eat. Well my family and I accepted Mrs. Martin's invitation and joined the ladies (and Waylon Adkinson) for a fine meal. Waylon and I have decided we are ready for them to make this a weekly thing cause we both enjoy good food. Waylon, probably thinks it all came from the Big Bear but I happen to know some of it was "home grown"!! We understand Waylon, cause we believe everyone reads the Elba Clipper.

I wonder what would happen if someone took that Alabama House and Senate to court on their recent vote doing away with the ethics commission just what would happen. The old law read that they couldn't vote on matters if they had a direct interest in the issue Now if they gon't have a direct interest in the old ethics law then who does? Now they can surely change the law but I believe that legally it would have to be effec tive with the next legislature.

Football season is fast approaching much to the dismay of the "football widows". Evidence of the great anticipation is seen anytime a group of fans get toget-They can't talk about last week's game but can talk about games of years gone by and this is exactly what is happening. The beauty of this kind of talk is that the games are vague in everyone's mind, therefore there is very little argument about the details

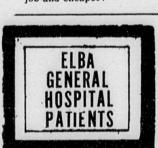

For several years now the Christmas Toys Project has been going on in this area. Ft. Rucker troops sta-rted the project with the help of area reliance project with the help of area police departments. Now it is so big in Elba that the police can't do it by themselves. The local Pilots Club has taken the project and is actively soliciting toys for the se-cond year they have been involved. They urge anyone with old toys (broken or unbroken) to just leave them at the police department. The toys will be repaired and given to some area child. I like this project it recycles something a person no longer needs and gets toys to some who otherwise might not get many, if any, Christmas gifts.

these days in Elba. A check with City Hall revealed that regular rains have kept the sprayer in the barn because it would do no good to spray when it is rain-Now they don't use the old diesel oil smoker anymore and it doesn't look like the spray is getting around but the experts say this new one does a better job and cheaper.

The new edition of your telephone directory is going to press soon.

If you have only a single listing, a lot of people are going to have trouble looking up other members of your family.

Certainly, your wife deserves her own listing. And giving a teen-ager a place in the directory is a nice way of saying "You're growing up."

To add or change a listing just call our business office. They can tell you how little extra an additional listing will cost. It's as easy as picking up the phone.
